

# Our very own BIRDS!

# They are already different!

- Autism
- Down Syndrome
- Behavior Issues
- Mental Retardation
- Mental Health Issues
- Schizophrenia

...are only some of the problems they have to live with and overpass

Thodoris

Panagiotis

Litsa

# And, if all these weren't enough, they also have to co-exist and cope with

- ✓ Their “normal” brothers and sisters
- ✓ Their ever- demanding, rarely supportive society
- ✓ Their roma / ukrainian / albanian co-students and friends
- ✓ Their tired parents
- ✓ Their pain-in-the- $\$@\#\%$  teachers

# Yet somehow they make it!

- ❖ They help their lesser able friends
- ❖ They forgive
- ❖ They learn amazingly well
- ❖ They stay friends for ever
- ❖ They do their best
- ❖ They love school
- ❖ They have fun
- ❖ They *always* smile
